

JEWEL MIA

Software Engineer

+880 1684-321082 | info.jewelmia@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

System Architect & Software Engineer with a proven track record of designing scalable enterprise platforms, including LMS, ERP, and e-commerce ecosystems across Web and mobile. Specialized in architecting high-performance systems and integrating advanced AI functionalities to transform complex business requirements into seamless, user-centric solutions.

Professional Experience

Software Engineer

Bina

January 2026 – Present

Ra'anana, Israel (Remote)

- Developing and maintaining full-stack applications for a global tech education platform.
- Optimizing application performance through backend, database, and API improvements.
- Integrating AI-powered solutions and contributing to scalable product development.

Backend Instructor

Hablu Programmer

April 2025 – December 2025

Rajshahi (Remote)

- Delivered backend development training covering REST APIs, databases, and scalable application architecture.
- Mentored aspiring developers through hands-on projects, code reviews, and engineering best practices.

Software Engineer

E-bitans Limited

January 2024 – February 2025

Dhaka, Bangladesh

- Developed and maintained enterprise web applications, including ERP and inventory management.
- Built scalable backend services and collaborated across the full stack to deliver business solutions.
- Optimized code structure and database queries to enhance platform efficiency.

Front-End Engineer

Lara Group

September 2022 – December 2023

Nairobi, Kenya (Remote)

- Built responsive web applications using **React.js** and **Next.js** for fintech and e-commerce clients.
- Reduced initial page load times by **40%** through lazy loading and optimized state management.

Core Technical Skills

Languages: JavaScript, TypeScript, Python, Dart

Frontend: React.js, Next.js, TanStack Query, Redux Toolkit, Zustand, Tailwind CSS, Shadcn UI

Backend: Node.js, NestJS, Express.js, GraphQL, Prisma, Mongoose

Databases & Caching: PostgreSQL, MongoDB, Redis

Cloud, DevOps & Deployment: AWS, Docker, CI/CD, Kubernetes, VPS & Cloud Deployment

AI & Development Tools: OpenAI API, LLM Integration, Git, GitHub, Postman, Swagger, n8n

Mobile Development: React Native, Expo

Project Experience

Learning Management System (LMS)

Full-Stack Engineer

Next.js | Express.js | MongoDB

[Live Link](#)

- Engineered a full-featured LMS platform with live-class streaming, assignment workflows, and Online payment integration.
- Implemented a secure custom video playback system with anti-distribution controls.

Ophelia Go – Multi-Vendor E-Commerce Platform

Lead Developer

Next.js | Nest.js | PostgreSQL

[Live Link](#)

- Architected a high-performance multi-vendor e-commerce platform with real-time inventory sync and dynamic management.
- Built a streamlined checkout workflow that reduced manual operations for administrators.

Education

International University of Business Agriculture and Technology

Bachelor of Science in Computer Science & Engineering

2022 – 2026

Dhaka, Bangladesh

Gurudayal Government College

Higher Secondary Certificate (HSC) – Science | GPA: 5.00 / 5.00

2019 – 2021

Kishoreganj, Bangladesh

Achievements & Languages

- **Champion** – Intra-University Programming Contest, IUBAT.
- **Languages** – Bangla (Native), English (Professional), German (A1)
